

English for Smart Workers

Unlock Essential Communication Skills for a Global Workforce!

Prepare for a brighter future with our specially designed course, **English for Smart Workers**, tailored for Bangladeshi workers heading abroad. This 1-month course equips you with the foundational English skills needed to navigate everyday conversations and workplace interactions with ease.

Objective:

Empower workers with the ability to understand and communicate simple phrases, instructions, and everyday vocabulary, building confidence in both personal and professional settings.

What You'll Learn

1. Introduction to English Basics:

- Learn the English alphabet and its sounds.
- Build a solid foundation with essential words and vocabulary.
- Understand basic sentence structures for day-to-day communication.

2. Essential Communication Phrases:

- Master greetings and self-introductions.
- Learn polite phrases like “please,” “thank you,” and “sorry.”
- Develop the skills to ask for help and give basic directions.

3. Workplace Communication:

- Understand simple instructions from supervisors or colleagues.
- Recognize safety signs and workplace instructions.
- Practice responding confidently to common workplace queries.

4. Day-to-Day Conversations:

- Engage in basic conversations related to food, shopping, and travel.
- Learn how to ask questions about location, time, and general information.

5. Listening and Understanding:

- Improve your listening skills by practicing with simple dialogues.
- Learn to understand instructions, even in different accents.

6. Basic Reading and Writing:

- Practice filling out forms with personal information.
- Learn to read important signs, notices, and safety warnings.

7. Review and Practice:

- Participate in role-playing scenarios for the workplace and daily life.
- Receive feedback on your speaking, listening, and understanding skills.

Course Structure

Duration: 1 Month (8 Classes, Weekly 2 Classes)

Class Schedule: 2 Hours per class

Mode of Delivery: Instructor-led, Classroom-based Training
