

IT Course:

ISP Setup & Operation using MikroTik and OLT (Including Internship)

Course Overview

Unlock the secrets of Internet Service Provider (ISP) setup and operations with our comprehensive course on **MikroTik and Optical Line Terminal (OLT)**. Designed for aspiring network professionals, this course will equip you with the essential skills needed to design, implement, and manage ISP networks efficiently.

Highlight: Includes internship opportunity with an actual ISP company, providing hands-on experience in a real-world environment!

What You'll Learn

Basic Networking:

- Understand the fundamental concepts of networking.
- Learn about network topologies, protocols, and standards.
- Gain practical knowledge of network devices and their functions.

LAN, WAN, IP Addresses, and Subnetting:

- Dive deep into Local Area Networks (LAN) and Wide Area Networks (WAN).
- Master the intricacies of IP addressing and subnetting.
- Learn to design efficient and scalable network architectures.

Routing - Static and Dynamic:

- Explore the principles of routing and its importance in networking.
- Configure and manage static routes for simple networks.
- Understand dynamic routing protocols and their applications.

Basic Switching - VLAN, STP:

- Gain insights into basic switching concepts.
 - Learn to configure Virtual Local Area Networks (VLAN) for segmented network environments.
 - Understand Spanning Tree Protocol (STP) and its role in preventing network loops.
-

Course Structure

- **Duration:** 3 Months with Internship
 - **Class Schedule:** Weekly 2 Classes, Per Class 2.5 Hours (includes a 10-minute refreshment break)
 - **Mode of Delivery:** Instructor-Led Classroom-Based Training
-

Who Should Enroll?

- Network Administrators
- IT Professionals
- Aspiring Network Engineers
- Anyone interested in ISP operations
- Entrepreneurs
- IT Freshers

Benefits of the Course

- **Hands-On Experience:** Practical sessions with real-world scenarios and a 1-month internship at an ISP company.
 - **Expert Instructors:** Learn from industry experts with extensive experience.
 - **Certification:** Receive a certificate upon successful completion of the course.
-

Course Fee

7,000 BDT
